

Sorry about the delay on this report. It was, however, unavoidable.

If I ever cease being so lazy maybe I'll be able to get back into observing. In the meantime, I note that over the past three years you have sent me, among other things:

The R.A.S.C. Standing Committee on Observational Activities, Variable Star Section: Bulletin 1 and Bulletin 5

and

The R.A.S.C. Comet and Nova Section: Announcement #10, Announcement #11

What happened to Bulletins 2,3,4, and any after 5?

And what happened to Announcements 1,2,3,....,9, and any after 11?
