Dear Jim,

Thank you for your frantic efforts in keeping us up to date on the Comet Ikeya-Seki situation. Unfortunately, and as you will probably understand if you are familiar with Vancouver weather, whenever the comet was visible it was cloudy and whenever it was not to be seen the sun was shining. I had three experienced observers on the lookout but no sightings. We are going to try to observe the recession.

Our group leader on comets and novae is Mr. Hugh Ross, 1060 East 11th Avenue, Vancouver 10, B.C. Would you please put him also on your mailing list.

Sincerely yours,

Charlie Schwerdtfeger
