

Box 172, AMF Postal Station
Montreal International Airport
Dorval, P.Q.

May 7, 1967

Dear Mr. Hawkins,

Thank-you for your letter of April 19. I am pleased that you have an interest in the Comet and Nova Section. Enclosed are the five forms used by this section, and they should be self-explanatory. However, if you have any problems, let me know, and I will try and clear them up. I have enclosed several copies of the report form (C&N Form #2), and if you decide to search, I will send you more. Also enclosed are copies of recent Bulletins and Announcements issued by this section. You are now on my mailing list for future Bulletins and Announcements.

As you will see from the instruction form, you can take part in this section regardless of what equipment you have. Naked eye searches may be made of the dome, binocular searches may be made of selected areas, or you may use a telescope to search for faint comets. What do you have?

I hope to see you in Montreal during Expo 67! Best regards and

Good Observing,

Jim Low

P.S. Please note the correct Box number, as above.
