

# Quiz Show

Kids love the format where teams compete like “Reach for the Top”.

Details at <https://www.reachforthetop.com/>

Basically a question is asked and each member of the two teams has device which makes a unique sound – horn, bell etc. The first team to respond gets a chance to answer it. Some schools might have a school “Reach for the Top” team with specific electronic equipment which the astronomy club might be allowed to use.

After each meeting, a club leader could make a list of a few questions of things which were explained then. At the end of the school year, make teams and ask those questions again. Perhaps 50 to 100 questions or maybe 4 per meeting.
