About The RASC

The Royal Astronomical Society of Canada (RASC) has a long history, receiving a Royal Charter in 1903.

Soon afterwards, the Society began founding "centres" in cities across Canada.

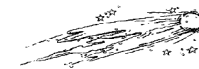

Since it was founded, the RASC has filled a major role in Canadian astronomy.

Information about the Society can be obtained at www.rasc.ca

Today, the RASC has 27 centres and over 4,700 members world-wide.

The Kingston Centre was founded in 1961 with Dr. A.V. Douglas as our first President and incorporated in 2005 as a non-profit.

To find out about this month's activities visit our web site at www.rasc.ca/kingston

Membership Application forms are available from the Treasurer at regular meetings or from: www.rasc.ca
